

CENTER OF EXCELLENCE

Hub for Centers of Excellence

A state-of-the-art outpatient complex offering:

- Innovative therapies.
- Advanced technology.
- Patient-centric design and atmosphere.
- A convenient location with easy access
- The Brain and Spine Center
 - Neurosurgery
 - Neurology
- Orthopedic Center
 - Orthopedics
 - Sports Medicine
 - The Rehabilitation Center
- Women's Center
 - Obstetrics and Gynecology
 - Pediatrics
 - Perinatology

Orthopedics, Pediatrics and Women's Health have long been notable services at Penn Highlands Healthcare. The Brain and Spine Center is newer but is notable in its own right. Now, a new and modern three-story plus ground floor building built on the campus of Penn Highlands DuBois West creates a hub for these Centers of Excellence under one roof.

Entering at the ground floor, a stunning circulation area and lobby greet patients and visitors. On this floor, a new 10,000 square foot Penn Highlands Neuroscience suite increases patient access for PH Neurology, PH Neurosurgery and Rehabilitation Disorder services.

The first floor houses the Orthopedic Center, a multi-provider office suite with imaging services, so patients do not have to go far for x-rays. The Rehabilitation Center's outpatient therapies suite is 8,000 square feet with room for equipment and running, throwing and sprinting space, aquatherapy and private treatment areas.

The second floor is home for the Women's Center, which includes office suites for Penn Highlands Life's Journey OB/GYN, Penn Highlands Perinatology (including high risk ultrasounds) and Penn Highlands Pediatrics.

The third floor provides approximately 25,000 square feet available for future outpatient services.

MASTER FACILITIES PLAN SUMMARY

In addition to the Center of Excellence, the \$180 million Penn Highlands Healthcare Master Facilities Plan includes:

- Penn Highlands State College – a state-of-the-art, technically advanced hospital and medical office building that is scheduled to open in spring 2024.
- Penn Highlands DuBois Emergency Department/Patient Tower – The five-floor tower will feature 30 Emergency Department bays, a 12-bed Observation and Clinical Decision Unit and four-bay vertical care fast-tracking area which will enable the ED to create a Level II trauma center.
- The Stern Center for Behavioral Health, a new state-of-the-art hospital offering an unparalleled therapeutic approach to promote stabilization and help children and adolescents manage their emotions and deal with life situations.
- Penn Highlands DuBois West Wing Annex – Features will include a new Ambulatory Surgery Center, a physicians' lounge, administrative offices and conference rooms, as well as new food service areas. Space allows for future expansion of the Maternal and Child Center Maternity Department, The Heart Center and Cardiopulmonary Services
- Penn Highlands Clearfield Emergency Department Renovations — a modernization to improve safety and patient flow.
- Brookville Medical Office Building – A three-story office building for primary and specialty care super clinics for multiple providers.
- Pinecrest Manor – Updates to all resident rooms and public areas with new furnishings and convenience features.

Other recent projects include new Community Medical Buildings in Clarion and Punxsutawney.
