

# About Penn Highlands Healthcare

The hospitals of Penn Highlands Healthcare (PHH) have been serving the residents of Northwestern/Central Pennsylvania as non-profit, community organizations for more than 100 years. PHH was established in 2011 on the principles that our community-based and controlled health care system would exist to improve regional access to a wide array of premier primary care and advanced healthcare services while supporting a reverence for life and the worth and dignity for each individual accessing Penn Highlands Healthcare.

It is the vision of Penn Highlands Healthcare to be the integrated health system of choice through excellent quality, service and outcomes. At Penn Highlands Healthcare, we provide residents of our over 39-county service area with access to the region's best hospitals, physicians, home care agencies, long-term care facilities, and other affiliates who believe that healthcare should be managed by local board members who live and work in the communities they serve.
